Hi Phil –

Yes, some of the folks from FWS and NMFS had a chance to review (at least one person from each agency is an author). USDA has not, but they have not been as involved with this particular effort (MAGtool).

I would have no problem using it as a general description in BiOp – I am actually using it in the MAGtool manual as part of the introduction.

Let me know if you need more info.

Thanks –

Colleen

Hey Colleen,

My recollection is that this is an ACS abstract that the Services had a chance to review. Did we reach out to USDA for comment? We were thinking that most of this could be used as a general description of the MAGtool for the draft BiOps. Any concerns with that?

Phil

Hi Phil –

I forgot – I have the abstract I just submitted! The highlighted text is 3 sentences – maybe it can be shortened to one!

Thanks –

Colleen
